

Re: Constructing Asymptotic Center Manifold for Extended Systems

P.S. Negi

Dear Editor,

In accordance with the comments received on the manuscript, the following changes have been added.

1. We strongly encourage all authors to share their raw data, either by providing it in a supplementary file or depositing it in a public repository and providing the details on how to access it in the Data availability section on the system. If you do not wish to share your data, please clearly state this in this section along with a justification. Data availability statements can take one of the following forms (or a combination of more than one if required for multiple datasets):
 - The datasets generated and/or analysed during the current study are available in the “figshare” repository with digital identifier: 10.6084/m9.figshare.31080808.
 - A reference has been added to the text.
2. Authors must disclose any interests that are directly or indirectly related to the submitted work. Disclosures should cover the last three years of conducting and preparing the research, and any older interests that could reasonably be perceived as influencing the work.
 - A conflict of interest statement has been added to the manuscript.

Thank you.

Regards,
Prabal S. Negi
